Seclusion

Beauty

Charm

Originality

for
your
Home

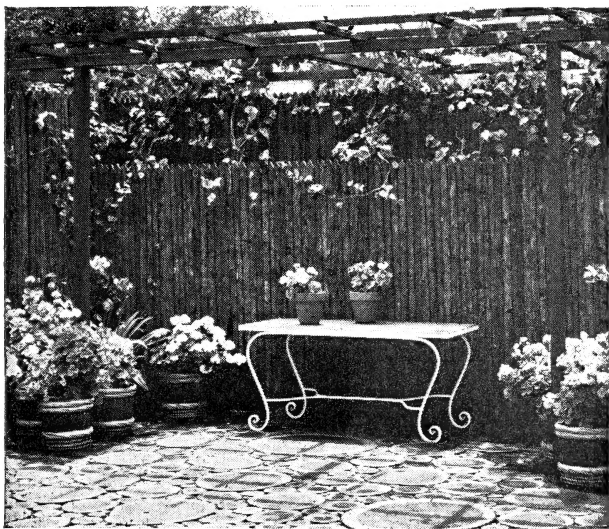

If

you are an individual sort of person
—one who is not satisfied with the
same things the “Jones’ ” have . . .

- your home means more to you than
just a place to eat and sleep . . .
- you dare to be original in your
planning . . .
- you love beauty for itself, and
appreciate harmony of design . . .
- your love of beauty is mixed with a
trace of “Scotchness” in demanding
durability and “Dollar for Dollar”
value . . .
- you are all—or anyone of these . . .

Then

this folder has a message for
you.

"Calfens"

(Reg. U. S. Patent Office)

THE ORIGINAL
REDWOOD FENCE

makes available to the
Home Owner, Landscaper or Decorator

**NEW BEAUTY
GREATER SECLUSION
HARMONIOUS CHARM
and a
DURABLE ORIGINALITY**

"Calfens"

- is made in panels—of original Redwood saplings — made either with or without the bark, to carry for a lifetime the rich rust brown color tones of the Giant Redwoods — roughly rustic in appearance — yet sufficiently natural to appropriately set off the most formal planting — combines the longevity of the world's oldest trees with unequalled durability of construction. The pickets are inter-laced and woven together with rustless copper wire.

● As you may have inferred from our folder thus far—we are enthusiastic about "Calfens." In fact, we could go on singing its praises through page after page of type — But you would be tired of reading and we would be worn out with writing. So — bear with us a moment longer — and — turn this page

Why

SYcamore 4-1121

Then let "CALFENS" itself tell you its story, talking through your eyes. After that, further praise on our part will be unnecessary —

P. S. "CALFENS" is equally at home on the country estate, the small Rancho, the city home — or, "believe it or not," the penthouse apartment or roof garden terrace.

**To THE ARCHITECT
THE LANDSCAPE GARDENER
or THE DECORATOR
“CALFENS”**

will solve easily those troublesome problems of screening garages, service quarters or laundry yards — in a manner that will add to the attractiveness of your ensemble.

“CALFENS”

comes in stock 5-foot sections in either 4, 5 or 6-foot heights, or may be had any height from 18 inches to 10 feet. It is easily constructed. Due to its lacing, the sections may be readily adapted to any roughness of ground contour. Matching gates are constructed to your needs, with rustic hinges and latches. Rustic posts may also be had.
